

Downtown Construction Activities

Proposed work activities for the week of January 24th, 2021

- Construction of new concrete sidewalks will continue this week along a portion of Hancock St. The crew will finish forming and pouring the remain section concrete sidewalk, begin installing brick banding and sign post . The temporary pedestrian detour remains in place between the area at Albas restaurant and the West of the Chestnut building. Business remains open during construction.
- The contractor at the Generals Bridge project will continue construction of the south barrier wall.
- The contractor at the General Dunford Drive project will continue installing park pavers and brick banding within the pocket park. In addition, National Grid will be installing a new gas main through the roadway section. Pedestrians should continue crossing the street at the crosswalk before this area along Hancock St. Temporary barriers remain in place on Hancock St for traffic re-alignment while the project is being constructed.
- At the McConville Way project the contractor will continue construction of the north and south streetscape aside the new roadway. The work this week includes, the continued installation of new planter curbs, brick pavers, mud slab, and new irrigation system. The reconstruction of the existing alley adjacent to South Shore Health and New England Comics/BAMSI will continue this week with the construction of removable bollards and pavers. The alley remains closed during construction. Within the future pocket parks the contractor will continue construction of the water feature foundation temporary electric transformers, park light foundations, flagpole foundations, and park underground electrical.

(The photo on the above left shows the construction of the new granite bench foundation at the future pocket within the McConville Way area adjacent to the Messina Lot. The photo on the above right shows recently constructed concrete sidewalk along Hancock St.)
